Hello Jessica,

Is there a way to obtain a record of usage such as an audit to see how much our department utilized the services during the trial?

This way I can provide some concrete data for those asking questions and I will submit your proposal along with including Jesse Macias in any discussion on this service.

Thank you very much.

Sincerely,

Officer Edwin Oak #10573

Hi.

Your Clearview pilot is close to the end. I was wondering if a procurement proposal would be helpful for you? Attached is pricing, but we can certainly tailor a package that fits your agency needs and budget. Additionally, if it is helpful to view a webinar let me know and we can schedule it.

Let me know if you have any questions and stay safe.

Good morning gentlemen,

Last week I submitted a request to Clearview AI to have access to their demo version and test their facial recognition technology. I received the email below from Clearview requesting additional information before they can activate my account on a trial basis. Are either of you familiar with these steps? Jesse, are you our department's administrator for Clearview? Dave, are you the "superior" involved with this pilot? Thank you both in advance!

Eric

-EXTERNAL-

Hi, and thank you for your interest in Clearview. You should have an email from Team Clearview with your account activation link. We encourage you to test the technology through a web browser on your computer/laptop (log in thru <https://app.clearview.ai/app/login>) and the mobile app. Additionally, if there are any other officers that would like a demo account just send us names and email addresses and we will set them up.

In order to continue with the pilot program, we must also complete the following:

- Provide your full contact information, rank/title and division of law enforcement (typically your email signature block will suffice).
- Provide verification that the agency has approved the testing of Clearview and provide the name and contact information of the superior involved with this pilot.
- The agency must designate at least one administrator who will have the ability to monitor and manage the users.
- The agency must have at least one representative (preferably at least the administrator) participate in a brief webinar. We provide these on a regular basis or we can schedule one at a time convenient to your agency. This will help the agency's users understand the utilities and best practices when using our technology.
- When the 30 day trial is over we will need to discuss the best package for your agency or termination of the pilot.

Stay Safe and we look forward to working with you.

Hey Jesse,

I spoke with Leslie Bruce and she said you should submit this to your sergeant and see if you can get a project funding request submitted through your chain of command for this product.

I don't know who started the trial or how it has been used, but if you push it up your chain of command for a project funding request, it will hopefully get funded.

Sincerely,

Your agency has had Clearview facial recognition accounts for more than 30 days. I am checking back with you to determine if you would like to continue the Clearview service and move toward procurement. The pilot program has technically run its course. If you have not had a chance to adequately test the technology I am happy to extend the pilot for 30 days. In such case I encourage you to add as many officers to the test program as you can. More users testing the technology tends to be more productive and informative. Each user should test Clearview on their desktop (log in thru <https://app.clearview.ai/app/login>) and the mobile app. Your user name is your email. If you would like to have a webinar to walk thru demos, learn about its utilities and ask question, just let me know. Additionally, please

If you would like to move to procurement, I'm certain we can work with you to accommodate your needs and your budget. I hope to see you retain this technology and look forward to hearing from you soon.

Morning Jessica:

I tried a few on Sunday and I wanted to try a few more faces today, but it said my account (trial) was disabled. Could you re-enable it and I am going to send it to our crime analyst and other detectives to give this program a shot. As of yet, I have not had any success with any of the pics that I have uploaded, but I understand it's a numbers thing and the more I upload the better chance I will get of ID'ing someone. Can you send me a quote to see if we can make this fit into our budget. Ty

Good afternoon. You should have an email today from Team Clearview with your account activation link. **Once you activate your account**, I encourage you to test the technology on your desktop (log in thru <https://app.clearview.ai/app/login>) and the mobile app. Also attached is general info with success stories and a doc with some search tips. ***If you would like to have a webinar to walk thru demos, learn about its utilities and ask question, just let me know. Additionally, please send names and emails for any other officers that would like a demo account and I will set them up right away.***

Please do not hesitate to contact me with any questions. I look forward to working with you.

Stay Safe,
- Jess

Good afternoon Jessica,

I have not had the chance to use Clearview since we currently have access through another software.

Your agency has had Clearview facial recognition accounts for more than 30 days. I am checking back with you to determine if you would like to continue the Clearview service and move toward procurement. The pilot program has technically run its course. If you have not had a chance to adequately test the technology I am happy to extend the pilot for 30 days. In such case I encourage you to add as many officers to the test program as you can. More users testing the technology tends to be more productive and informative. Each user should test Clearview on their desktop (log in thru <https://app.clearview.ai/app/login>) and the mobile app. Your user name is your email. If you would like to have a webinar to walk thru demos, learn about its utilities and ask question, just let me know. Additionally, please

If you would like to move to procurement, I'm certain we can work with you to accommodate your needs and your budget. I hope to see you retain this technology and look forward to hearing from you soon.
